**Unrefined soybean oil in bulk**

Sourced from non-GMO Ukrainian soybeans cultivated on fertile black soil using precision farming technologies.  
Mechanically pressed to preserve natural nutrients, flavor, and aroma – no chemical solvents used

## SPECIFICATION

### Origin & Production:

- Sourced from non-GMO Ukrainian soybeans cultivated on fertile black soil using precision farming technologies
- Mechanically pressed to preserve natural nutrients, flavor, and aroma – no chemical solvents used

### Key Features:

- Nutritional Profile. High in Omega-3 & Omega-6 fatty acids, vitamin E, and phospholipids (supports heart health and industrial applications)
- Color & Flavor. Deep golden to brown hue with a robust, nutty taste perfect for artisanal food production and ethnic cuisines
- Versatility. Ideal for food processing (dressings, margarine), animal feed, and biofuel production due to its high energy content

### Quality & Compliance:

- Acid value:  $\leq 4$  mg KOH/g (meets DSTU/ISO standards)
- Free from additives: Unrefined, unfiltered, and non-deodorized for maximum natural benefits

### Packaging & Logistics:

- Bulk options. Tankers (20–30 MT), flexi-tanks, or IBC totes (1000L)
- Efficient export. Shipped from Black Sea ports (Odessa, Chornomorsk) with FOB/CIF terms to EU, Asia, and Africa .

### Why Choose Ukrainian Soybean Oil?

- Cost-competitive. Lower production costs vs. Brazil/U.S. due to local soybean cultivation
- Traceable supply chain. Partner with vertically integrated producers (e.g., Kernel, Greenvector Agro) for consistent quality
- Duty-free access to EU. Benefit from Ukraine's autonomous trade measures (ATMs) until 2025

Request a quote today! Ideal for food manufacturers, biofuel producers and wholesalers seeking premium unrefined soybean oil at scale
